

Our training and coaching team

Stefanie Böttcher & Daniela Kauer

Systemic coaching & training
Applied improvisation
Facilitation

Stefanie Böttcher and Daniela Kauer have been working as trainers with people from a wide range of fields since 2005 and support them in their professional development and inner growth.

Since 2013, a further focus of their work has been the support of specialists and executives to the boards of DAX and FTSE-listed companies and finding solutions in challenging and conflict-prone situations.

Through their open and appreciative manner, Stefanie Böttcher and Daniela Kauer create an atmosphere of trust and thus lay the foundation for deep and sustainable processes of change. With their expertise and passion for impact and presence, as well as the complexity of communication, motive orientation and status, they lead inspiring and gladly "human" seminars with a high self-experience share. The aim is to promote "self-awareness" and a benevolent, constructive attitude in dealing with others among all participants with the help of a wide variety of methods and exercises.

Whether as consultants, facilitators of large group events or in the individual setting – their vision is to connect people, change perspectives or support the personal development of people profitably.

„It was 2 days with hearting, direct, authentic trainers, without a table in the seminar room, outdoors, standing, running, sitting, auditioning, listening, laughing, discussing, overcoming boundaries, learning, recognizing, speaking, advising, one "aha experiences" after the other, dare, trust ... And without looking at the clock once!!!"

Bettina Niegel, Allianz consultant
