## “Washing Instructions” in Business-Contexts

- Employee Edition -

Performance = **a**bility x **w**illingness x **p**ermission

## Advanced Interpersonal Communication

*Communication-tools for everyday life*

### Content

The interaction of inner and outer stance, as well as the deliberate or unaware negotiation of ones position in inofficial rankings, complicate interaction with others and often make it incomprehensible

All these situations are based on a grammar that is based mostly on the “situational status” and - like the grammar of any language - regulates structures and modes of action according to which the interpersonal “language” largely takes place.

Get in touch with the dynamics of status-constellations and the impact resilience has. Be in the lead when getting rid of “spanners in the works”.

### Topics

- The „Status-mattress“
- Resilience – the spring of inner status
- Feedback as a tool for improvement
- Using the status-model in everyday situations
